THE subscriber, by appointment from the Commissioner of Patents, is Agent of the U S. Patent Office for receiving and forwarding to the same, models specimens or manufactures to be patented, or deposited therein, which will be sent *free of expense and risk*, and with despatch. He will prepare Caveats, Specifications Assignments, and all the necessary Papers and Drawings for Patents, will make researches into American and Foreign works, to test the validity of inventions, and render advice on legal and scientific matters respecting the same. They also have the advantage of *verbally* explaining their inventions, and of consulting in respect to them, *matters, in general, of paramount importance in order to obtain correct specifications and claims*. The expenence of *sixteen* years's practice, an extensive collection of rare works, decisions, &c on mechanical subjects, the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors, desirous of procuring Patents, assistance and information which in other respects might be difficult of attainment.

The Great Remedy for Consumption

CURE, Structure, and all analogous complaints, is Dr DOUGLASS'S ARABIAN PASTE. Dr Douglass is well known having practiced in the principal cities in the Union during the last 40 years. His only reason for introducing the Paste in this public manner, is the consciousness that there are thousands of ill treated complaints in this city—thousands of individuals who are going down to premature graves by taking the miserable drugs of quacks.

Dr D most solemnly affirms that during his practice of forty years, this Paste has never, in one single instance failed of effecting a cure in a few days, without any change of diet or hindrance from business. He has had some of the most stubborn cases—cases that have resisted the regular course of treatment adopted by our first physicians, for months and even years but after taking the Paste for a few days, the angry symptoms disappeared and the patients were discharged, entirely cured.

If the unfortunate, instead of drugging themselves with quack nostrums, would purchase only one box of the Arabian Paste we should not see so many emaciated bodies and sallow countenances as we do at the present time.

☞ In case this Paste should fail to effect a cure in the shortest possible time, two times the price paid for it will be given the purchasers on returning the empty boxes.

For sale only by the original inventor and sole proprietor, Dr PETER G DOUGLASS, at his Office, No 55 Union street, Boston, at $5 per box where he can be confidently consulted on every disease incident to the human frame, and the patient rely upon the most beneficial course of treatment that can possibly be adopted.

Principal Office,—No. 30, India Street, Boston.

Please read the following certificate of a highly respectable and well known citizen.

[illegible] N H April 1 1845

To Whom it may Concern:

This is to certify that for the last two years I have been afflicted with a severe pain in my side and back which at times was so severe as to confine me to my house, and sometimes to my bed. I had a cough which was very distressing to me, and my health was much impaired. I was induced to try Dr Jewett's Pulmonary Elixer and Strengthening Plaster, which I did, and found immediate relief from their use. I have used in all about three bottles of the Elixer and two Plasters, and am now entirely free from pain, and my health is restored. I have also used the Elixer in my family for a bad cough, and found it to be a very good medicine for that complaint. I cheerfully recommend the Dr's Medicines to the public as valuable medicines and can confidently recommend them to those afflicted with pain in the side and back, as a certain cure.

ELIPHALET BLAKE.

DR STEPHEN JEWETT'S

Health Restoring Bitters,

These Bitters acting as tonics, purify the Stomach Liver and Bowels from any of the morbid secretions, thereby purifying the blood and invigorating the organs of digestion, not only entirely eradicating the disease, but they also fortify the system against all attacks of disease. It is a common remark among those who have used Dr Jewett's Bitters that they have but little to do, as the system feels so strengthened after the stomach and bowels are kept in a good condition and the blood purified, the great predisposing causes are removed and the whole system so fortified against the morbific diseases which otherwise would have engendered perhaps fatal diseases.

In order that the public may know that they are offered a truly excellent article we append the following certificate which is one of many numerous we have in our possession by calling on the proprietor.

Boston, May 5, 1845

To all whom it may concern.—I hereby certify that I have been afflicted with a severe bone humor which has destroyed the bone and was (as I understanding to) health and had several parts in the back, loss of appetite, languor, and general debility.

A short time since I commenced taking Dr Jewett's Health Restoring Bitters, and in a very short time my humors and pains left me, my appetite improved, and my health became so good as to enable me to do my work. I attribute to Dr Jewett's Health Restoring Bitters.

(Miss) P H RUSSELL, Beach Street.

DR STEPHEN JEWETT'S

Pulmonary Elixer.

Nearly one third of all the deaths that occur in New England are caused either directly or indirectly by diseases of the Lungs and Chest. Why is the great sacrifice of human life? How happens it that the highest intelligence of the greatest powers the hope and support of the human race sinks down so early in life? What is the reason many families have been made desolate by that all destroyer Consumption? And how happens it that so many interesting and lovely children are cut down every year by those dread diseases the Quinsy and Croup? Is it because these diseases are incurable? They claim will tell you these diseases can be cured—Taken in time.

It is true these diseases can be cured with almost absolute certainty—if taken in season. Every body should be warned against this fact and protect themselves with Dr Jewett's Pulmonary Elixer.

The following certificate among numerous others which have been received is appended for the benefit of those who desire more certificates.

WINCHENDON Mass March 10, 1845

Stephen Jewett—Dear Sir—I feel it a duty to you and to the public generally, to inform you all, who may have diseases of the Lungs and long continued cough by one bottle of your Pulmonary Elixer—For months I have been a great sufferer. I had pain in my left side, sore throat, constant cough, and raised a good deal of bad looking matter. My strength was gone and my flesh was wasting away. I took many things without benefit and was actually getting worse, till I procured your Pulmonary Elixer which has cured me, and I cheerfully recommend it to all those are troubled with coughs.

Yours truly,

THOS. CUMMINGS.

DR STEPHEN JEWETT'S

Strengthening Plaster.

These Plasters possess the properties of *removing Pain curing Lameness Cramp Lame Weakness in the Back Joints or Side, Rheumatism, Weak Stomach* &c and when used in connection with the former in Liver Diseases will prove very beneficial in removing the pecuniar pain between the shoulders and in the side and back so well known to those suffering with such diseases. This Plaster from the quantity and quality given in each, is superior and superior to the "Foot Man's" or any other Plasters, and can be made any size wanted, without waste one roll will make five good sized Plasters. [illegible] Gazette

John A. Sayward.—Editor

FRIDAY, JANUARY 19, 1849.

Quite a time, at Court.

Some few days since Col John Goddard of Orono, defended a case before the Supreme Court at Portland, which excited no little attention Col G is the well known enterprizing lumberman of the Penobscot and St John waters—a man with more phrenological contrasts than any other in the State—active, energetic, overbearing—a lover of the table and all its good things—overflowing with mother wit, and possessing a verbal one forty so strong as almost to make books and memorandums of no use to him His book education was acquired at the common school He was a Portland boy and there the case was to be tried and when it was understood that he was to manage it, of course all who knew him and remembered his boyish pranks were curious to know how he would succeed

The case itself was one of somewhat novel character and involved the amount of several hundred dollars. It seems that Messrs Fessenden, Deblois and Fessenden of Portland had sued Messrs Goddard & Jenkins, a late firm of lumber merchants in this city for professional services and among the charges was one of five hundred dollars for arguing a case in Portland Col Goddard was unwilling to pay such a bill and made efforts to get counsel to defend the cause in Court, but there was an unwillingness to engage in it on the part of the members of the legal profession The Colonel thereupon resolved to manage and argue the cause, before the jury, himself

A correspondent of the Portland Umpire thus speaks of the Colonels argument

"I went into the court house and there a novel spectacle presented itself The house was crowded to overflowing, his honor, Judge Wells, presiding. At the time we entered, Col John Goddard, one of the defendants, was arguing his case to the jury, and the way he did it was a caution (to use a vulgar phrase) to lawyers particularly For more than two hours, the attention of the audience was enchained and to own the truth, I never in my life heard anything like it The words flowed in torrents from his lips, and every one was to the purpose It was evident from the appearance of the plaintiffs, that the powerful oratory of Col G was producing its full and desired effect in other words they curled (if I may use the expression) like burnt boots, beneath his withering tongue It was a manly and capital argument—a powerful defence, or rather attack We respectfully suggest to Col Goddard, that he abandon the lumbering business, and adopt the profession of the law at once."

The verdict of the jury reduced the fee of the plaintiffs, Fessenden Deblois and Fessenden about two hundred dollars Success, we say with all our heart to the indomitable Col Goddard "

The editor of the Umpire says that the defence of Col Goddard is generally spoken of as having been well managed, on the part of the defendant, and that some merriment was occasionally excited by his retorts

To those of us who are well acquainted with Col Goddard, it would have been worth a journey to Portland to have heard his argument—He was opposed by A L Codman Esq, but was careful to anticipate every personal hit, or as he expressed it to abuse himself as much as any one could, but insisting, that this was no justification for overcharging for professional services

Col Goddard is too good a lumberman to engage in the law, and after taking good care of his own cases he should be content

☞ We have received the first number of a newspaper published in New York, and edited by Thomas Devin Reilly, John McGlenahan, and William B Robinson These accomplished men propose to give in their paper a reflex of American, with European intelligence It will aid in spreading Republicanism over the whole earth It will endeavor to cement the interest and promote the good will of the Emigrant and the Native It will labor to enlighten all emigrants as to the nature and principles of our political system and the business resources of the country It will give a list of the passengers arriving from Europe A European edition for the steamers will be published each week This is just the paper which every foreigner in this country should attentively study It will give him a better idea of the foreign news than he can elsewhere obtain and its advocacy of reform and republicanism will cause it to seem like the best publications which have heretofore been issued in Ireland A portion of the paper will be published in the French language and a portion in the German language The price is two dollars a year

☞ The Rev D Cox's church, in Brooklyn, have held a fast for those about leaving for California The pastor said he thought that those engaged in gold hunting should be deeply impressed with the fact that there was something more valuable than gold or silver or precious stones—more valuable than all worldly possessions

☞ The theological Mormons declare that the discovery of the Gold mines in California, is the result of their selection of that country for their abode In other words they consider it a special interposition of Providence in their behalf The political Mormons are trying to make it out that it was to obtain this gold that the war with Mexico was waged

☞ In all parts of the country the people are agitating the subject of the formation of companies for the purpose of proceeding to California At least twenty five persons will leave this city for California, within a short time and others perhaps may follow Those who go from this vicinity are of the right stamp for any enterprise requiring skill, energy and industry

☞ The Springfield Republican states that a case was recently tried in that town for the recovery of $2.50, for advertising The payment was resisted on the ground that a lie occurred in the same, in answer to which it was pleaded that the manuscript was so badly written that it was difficult to decipher The case was decided in favor of the printers

☞ The Bath Tribune states that an old lady, who was coming from Belfast in the stage, the other day, hearing the raging of the wave, caused by the wind, asked what it was On being told it was the Telegraph, she replied, "Why, I don't care how they can tell one word from another by that means"

Government Express for California.

The New York Sun says—Capt Meade, U S Navy, proceeds to California in a few days, with one hundred picked men He goes by way of Mexico, with a special protection from the Mexican Minister Capt Meade orders are to proceed with all possible despatch, and on his arrival out, take the command of the U S steamer Edith, and aid in protecting the interests of the citizens and government of the United States and San Francisco We understand that the steamer Edith will be used as a depository for gold, in the absence of a mint in California Every packet leaving San Francisco for Panama will take from the Edith whatever gold she may have on board, and thus it will be conveyed to Chagres and thence to New Orleans with all possible rapidity

The Ohio question.

It appears from the Ohio Whig papers that even if the Loraine county returns were not received, Ford would still be elected The Speaker's statement of the vote gave Ford 871 majority Loraine gave him 610 majority, so that, giving the Democrats their own way, he would have a majority of 261 in the State On a survey of the whole affair, says the Cincinnati Gazette "we cannot but think that the Speaker performed his duty, and that who ever initiated attaches to this most disgraceful *emeute*, must fall upon the party which can sustain or excuse such grossly lawless and indecent acts as those committed on this occasion by the Red Republicans of the Ohio Legislature

Emigration of Protestant Farmers from Ireland.

The Monaghan Standard contains the following "One may imagine something of the extent of emigration from this part of the country from the fact that in one small congregation or curacy in the neighborhood, where the number of Episcopalians' christenings was 1600 a number exceeding 240 left this year for the American coast This far exceeds a denomination of the population

Lecture on this Evening.

☞ Hon E L Hamlin will deliver a lecture before the Mechanics Association on this evening on the ISLANDS AND ISLANDERS of Maine This will be an interesting lecture Members of the association with their families and friends and the public generally are invited to attend

The English and Hayti.

The London Times, in speaking of President Soulouques Proclamation in regard to Spanish St Domingo, says

"The proclamation acquires some importance at the present moment, from the fact that diplomatic relations have lately been opened between Great Britain and the eastern district of St Domingo, which had for their object the formation of mutual advantage to both countries, but which appear to stand very much in the way of President Soulouque's expectation of union between the two republics of the island"

☞ A company of ten have started from Sandusky City (Ohio) for California, all without families and with one exception, young men—The party is headed by Mr John Johnson, a man about 45 years of age and who has spent a large portion of his life in the employ of the Hudson Bay Fur Company

☞ The Tallahassee Sentinel says that Gen Jackson Morton, the newly elected Whig U S Senator, has served with eminent ability in the legislature, and was a devoted and true Whig as can be found in that State—a man of liberal views, of polished manners, and of sterling sense

An affecting incident is related by a Donegal paper A few nights since a young woman, his sister returning from Pettigo homeward, had to cross to attain The night was dark and stormy, and they lost their way Not returning both were found dead from exposure They lay, and parting side by side—The latter with her arm round her brother's neck, and her handkerchief removed in order that she might wrapped round his face Should the poor creature perhaps sacrifice her own life in a vain effort to sustain that of her brother

☞ John H Worland Esq has entered upon the duties of associate editor of the Lowell Courier, in place of Mr Streeter who has retired Mr Worland has had large experience in the editorial profession and will continue to maintain the high character of the Courier

☞ The Government council of Trinidad, on the 2d of December, adopted a series of resolutions tending somewhat to the re establishment of slavery which excited some feeling in the public mind

Santa Anna according to the Kingston (Jamaica) Journal of the 28th ult, was quietly living there, with no thought of returning to Mexico, or projecting a revolution

☞ The Salem Register says that Captain Varney arrived in that city on Saturday, with a quantity of pure California gold The Editor says he saw a piece which weighed not far from a pound and a half

☞ It is stated that Albert Smith applied to the President for the appointment of Commissioner to run the boundary line with Mexico—Mr Smith likes the business

☞ We learn that Joe Mitchell one of the Penobscot Indians, has been arrested and lodged in jail in this city, on a charge of murdering his father He will probably be examined this day

☞ The Skowhegan Peoples Press says that a great reform took place among the tobacco smokers in that town on New Years day The reform was welcome in this city

Washington Goode convicted of the crime of murdering Thomas Harding has been sentenced to be hung

The Marblehead Advocate says that a number of dogs have been killed in that town, supposed to be mad

☞ The Dry Goods Reporter expresses the opinion that with the opening of spring there will be an active business

It is stated that Mr Webster is now engaged in writing a history of Washington's Administration.

☞ A musical instrument of the Feejee Islanders, is a flute blown through the nose

☞ At the late meeting of the Stockholders of the Maine Magnetic Telegraph Company held at Thomaston, the following gentlemen were chosen Directors for the ensuing year, viz

B C BAILEY, of Bath
ABNER STETSON, of Damariscotta
J. SUPER CLARK, Waldoboro
EDWARD O BRIEN, West Thomaston
KNOTT CRACKETT, East Thomaston
O H ALLEN Belfast
SAM'L FARRAR, Bangor
JOSEPH GRANGER, Calais
ANOS KENDALL Washington
F O J SMITH Westbrook
JAMES FOSS, Bangor

A late despatch from Paris which appears in the New York Courier & Enquirer, has the following

"We are here in a state of considerable alarm to day Just as we thought that everything was progressing steadily toward the quiet and peaceful installation of the new President it has been ascertained that some evil disposed persons have determined to take advantage of the occasion to get up if possible a disturbance The plan proposed by the perturbators is not very well known but it is believed to be this A procession is to be formed on the morning of the installation which after reaching the Place de la Bastille is to proceed along the Boulevards and the Rue la Paix to the Place Vendome where Prince Louis Napoleon resides and there he is to be saluted with cries of "*Vive Napoleon! Vive l'Empereur*" Should it succeed farther demonstrations would be made against the Republic and in favor of a revival of the Empire but the present nature of them is not ascertained The Bonaparte family deny all knowledge of it and use all their efforts to prevent it—They say it is a weak invention of the enemy"

Reduction in the Price of Pork.

The Cincinnati Times explains as follows the cause of the fall in that market of the price of pork

At the opening of the pork business it was proclaimed, and generally believed by the pork buyers especially those from the East that the number to be killed would be less than an average With this impression prices went up in contract but to be fulfilled It is now known to a certainty, however that the supply of hogs will be quite large and, therefore heavy buyers have left the market and will not give more than present rates Money is scarce and dealers of all descriptions are caught as—This is the whole truth of the price of pork for long Neither children nor children's rights had any thing to do with it

☞ Mr Brownlow Editor of the Jonesborough (Tenn) Whig, has been invited to attend the Fair for Festival to come off on the 22d prox in Philadelphia He replies through his paper

JONESBOROUGH Jan 3 1849

GENTLEMEN * * * I am sorry, Gentlemen that I cannot be with you, but as I contemplate a visit to your city some two weeks after that, anything which may transpire whilst on the glorious occasion of your assembling together I will take a pleasure in telling in true Western style when I appear among you

If a speech is required of me Gentlemen it will suit me best to make it where there is not such an abundance to eat for I am a very great eater Besides I can be more fluent more eloquent and much more to the point after Gen Taylor selects his Cabinet, provided they are of the right stripe But Gen Taylor is a great man and if he were to have no Cabinet at all and even avow no principles in his inaugural he deserves all the honor you propose to confer upon him at your coming celebration for the manner in which he used up Mr Polk a favorite General the late and by the President, the lamented Santa Anna

Truly yours, W G BROWNLOW

The New Electric Light.

The following appears to be one of the most wonderful discoveries of the present age

On Monday evening the 30th of October we visited the Hanover square Concert Room to behold this new light, and certainly were amazed at this addition to the triumph of science—On entering the large room, we found it illuminated by a diffusive white light that showed to perfection the pictures on the ceiling and also some which had been placed in the room to prove the intensity and power of the new light This test, a severe one, was perfectly satisfactory for the greys and yellows were plainly perceptible, as also the flesh tints A company comprising scientific men of eminence and directors of gas companies the proprietors of patents relating to lights of every kind and a multitude of highly intelligent and respectable persons had large assembled M Staite and Mr Petrie the discoverers and patentees were on the platform surrounding the eager questions of the scientific men and after a short interval, Mr Staite gave a brief outline of the most prominent character of the new discovery which was eagerly listened to, and frequently elicited bursts of gratified admiration He stated that the problem of producing the electric light permanently, of regulating, and economical, had been accomplished Its advantages were, that not being combustible, it was harmless That being without heat, it was not injurious to the eyes or other senses That it could be conveyed by wires as neatly as bell wires It was economical, for the light of a hundred wax lights could be furnished for a penny an hour The outer shade being round and an elegant glass vase about two feet in height, and six inches in diameter of an arched shape and on a metal plate so that no air was admitted was exposed to view We conveying the fluid, was all that was to be seen and the light was turned on and off by Mr Petrie, and the transition seemed from day to night although there were several chandeliers alight in the room The delicate human hand thus controling the fierce and most appalling power that manifests itself in the tropical storm struck all present, and an involuntary burst of admiration manifested the almost awful interest with which the matchless triumph of human skill and science was appreciated Mr Staite declared his intention of shortly giving a series of lectures on the subject After an evening numerous questions being answered with amazement at the discovery and admiration of the quiet simplicity and modest bearing of the discoverers

Congress

Washington, Jan 13

The Senate was not in session to day having adjourned over yesterday until Monday

In the House the members assembled yesterday at the usual hour when the Speaker resumed his seat, and called to order The journal of yesterday was then read and the Chaplain offered up prayer

After the transaction of some unimportant business Mr Freese of Ohio withdrew his resolution relative to the arrest by the Sergeant-at Arms of David Taylor, a witness who had refused to answer questions propounded to him in relation to Mr McDill Commissioners of Indian Affairs

Mr Gogein made an ineffectual attempt to get the House to take up the Post Office bill

On motion the Pacheco slave case was taken up Mr Holmes of S C rose and propounded a few questions to Mr Palfrey but before they were answered Mr Collamer took the floor and proceeded to give a statement of both sides of the question—In the course of his remarks he replied to the speech of Mr Barr made upon a former occasion.

Mr Pust interrupted Mr Collamer, on leave and complained that his argument had not been fairly stated

At the conclusion of Mr Collamer's speech, explanations and law points were made by him and Messrs Burt and Holmes of South Carolina

Mr Mead followed on the Southern side of the question, and replied at length to Mr Collamer

Mr Hall, of New York, followed on the Northern side of the question

Mr Toombs of Georgia, next obtained the floor but yielded to motion for adjournment, which was carried

This question has now been debated for many days, and with great feeling. Southern men have voted for this bill In a body putting it upon the single ground of the right to hold property in slaves The question, therefore, It has been made sectional at all, has been thrust on by the Southern men, as many Northern members have voted for the bill And, moreover, some Southern men here who never vote for private bills at all.

GOOD ASSORTMENT for sale by

oct26 ZENO & HALE.

DR. CHRISTIE'S GALVANIC BELTS, MAGNETIC NECKLACES, AND MAGNETIC FLUID.

For the Removal and Permanent Cure of all

NERVOUS DISEASES,

And of those complaints which are caused by an impaired weakened or unhealthy condition of the

NERVOUS SYSTEM.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM has been pronounced by distinguished physicians, both in Europe and the United States, to be the *most valuable medicinal discovery of the Age*

Dr. CERISTIE'S GALVANIC BELT

and

MAGNETIC FLUID,

used with the most perfect and certain success in all cases of

GENERAL DEBILITY,

Strengthening the weakened parts, giving tone to the various organs, and invigorating the entire system All are

FITS, CRAMP, PARALYSIS AND PALSY,

Dyspepsia or Indigestion,

RHEUMATISM, Acute and Chronic,

GOUT, EPILEPSY, LUMBAGO,

DEAFNESS, NERVOUS TREMORS, PALPITATION OF THE HEART, APOPLEXY, NEURALGIA, PAINS in the SIDE and CHEST,

Liver Complaint,

SPINAL COMPLAINT, and CURVATURE of the SPINE, HIP COMPLAINT, DISEASES of the KIDNEYS, DEFICIENCY OF NERVOUS AND PHYSICAL ENERGY,

and all

Nervous Diseases,

which originate more from one simple cause, namely

A Derangement of the Nervous System.

☞ In NERVOUS COMPLAINTS, Drugs and Nostrums increase their pain for they weaken the already enfeebled state of the stomach, prostrate the system, & render the strengthening life giving vitalizing power of Galvanism as applied by this beautiful and wonder Discovery the exhausted patient and weakened sufferer is restored to former health strength elasticity and vigor

The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives,

consists in the fact that they arrest and cure disease by *vitalization* in place of the usual mode of drugging and physicking (poisoning) the exhausted Nervous System with deleterious nostrums

They strengthen the whole system, & thus the cure is one of the most speedy and permanent ever discovered Since their introduction in the United States in three years were more than

60,000 Persons

including all ages of sex or condition among which were a large number of the most respectable subjects NO Nervous complaints have been

ENTIRELY AND PERMANENTLY CURED,

when all hope of relief had been given up, and every thing else been tried in vain

To illustrate the use of the GALVANIC BELT, suppose the case of a person afflicted with that bane of civilization, DYSPEPSIA or any other Chronic or Nervous Disorder In ordinary cases stimulants are taken which by their action on the nerves and muscles of the stomach afford *temporary* relief but which leave the patient in a lower state and with injured faculties, after the action thus excited has ceased Now compare this with the effect resulting from the application of the GALVANIC BELT Take a Dyspeptic sufferer, even in the worse symptoms of an attack and simply fix the Belt around the body using the Magnetic Fluid as directed In a short period the insensible perspiration will set on the positive element of the Belt, thereby causing a voltaic circulation which will pass on to the negative and thence back again to the positive, thus keeping up a continuous Galvanic circulation throughout the system Thus the most severe cases of DYSPEPSIA are PERMANENTLY CURED A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS

Certificates and Testimonials

From the most Respectable Sources,

Could be given, sufficient to fill every column in this paper We make a few selections The first is an

EXTRAORDINARY CASE

and conclusively proves that

"Truth is stranger than Fiction."

The following letter narrating one of the most remarkable events in the annals of Medical Science is from the

Rev. Dr. Landis, a Clergyman

of New Jersey of distinguished attainments and exalted reputation —

Shorey, New Jersey, July 12 1848

DR A H CHRISTIE—Dear Sir You wish to know of me what has been the result in my own case, of the application of the GALVANIC BELT AND MAGNETIC FLUID My reply is as follows

For about twenty years I had been suffering from Dyspepsia in very bad form Symptoms became worse, more and I obtain permanent relief than any course of medical treatment whatever My physicians were skilful and excellent men, but here their prescriptions failed About *fourteen* years since, in consequence of frequent exposure to the weather in the discharge of my pastoral duties, I became subject to a severe Chronic Rheumatism, which for year after year caused me intolerable anguish In the severer attacks the skill of my physicians sometimes afforded me great relief, but this relief was only temporary Further in the winter of 44 and 45 in consequence of preaching a great deal in my own and various other churches in this region, I was attacked by the Bronchitis, which soon became so severe as to require an immediate suspension of my pastoral labors *My nervous system was now thoroughly prostrated*, and as my Bronchitis became worse so also did my Dyspepsia and Rheumatic affection—thus causing that these disorders were connected with each other through the medium of the Nervous System My sufferings were indeed severe, and I had no prospect other than being entirely laid aside from the discharge of those duties, and the performance of those labors in which my soul has ever found the highest of her joys

But reasoning from effect to cause I concluded that the *Nervous System* must be reached, before any hope could be indulged of my obtaining relief from these most distressing maladies In the whole Pharmacopeia there seemed to be no remedial agent which could reach and recuperate my Nervous system, every thing that I had tried for this purpose had completely failed At last I was led by my friends to examine your inventions and (though with no very sanguine hopes of their efficiency) I determined to try the effect of the application of the GALVANIC BELT AND NECKLACE, with the MAGNETIC FLUID. This was in June 1846 To my great astonishment in two days my Dyspepsia had gone, in *Eight days* I was enabled to resume my pastoral labors, and my Rheumatic affection ceased to trouble me. If time permitted, I could fill a sheet of paper with the details of particulars, but I can now only furnish this brief abstract My Dyspepsia has *never returned*, the Rheumatism once in a while visits me, but not severely, and is easily arrested and is manifestly being driven from its hold upon my system, and my Bronchial affection is *entirely cured* Such is the wonderful and happy results of the experiment.

I have recommended the BELT and FLUID to many who have been likewise suffering from neuralgic affections They have tried them, with MARVELLOUS RESULTS I believe in cases of

I am, dear sir, very respectfully yours,

ROBERT W LANDIS.

☞ Many hundred Certificates from all parts of the country of equally extraordinary character could be given.

SPITTING BLOOD

New York, April 28 1847

DR TOWNSEND—I cannot refrain expressing to you the great benefit I have received from your Sarsaparilla before I began to use it, I was troubled with Dyspepsia, of such a severe character that I could not eat the least thing without suffering the most excruciating pain, and was so reduced that I was unable to walk across the room, and was given up by my physicians and friends to die. I was induced to try your Sarsaparilla, and before I had taken one bottle I found relief, and after using three bottles of this invaluable medicine I have been restored to my former health and strength, which I now enjoy.

Yours, truly, WILLIAM SECORE,

THE TIME IS NOT FAR DISTANT

When people will cease running after the quack nostrums of the day, and finding that every disease may be cured by one, we find permanent relief and restoration to health, by using the celebrated medicine
